

Motoric 22.11.

Ideas To do's:

Pipes:

Connect 

- Data cleaning
- Data visualization
- imputation
- Evaluation

- Hyperparameter tuning
- Prototype
- Git Automation
- Presentation template → CD?

Prototype

- What should the prototype look like?
- What does the DUI need?
- Does the DUI need a UI?
- What are the important information?
- What does the DUI want?

Jerome

- remove to MQ score out of prediction
- predict on other features (e.g. Perceived MC)

Prototype

Ideas

- Dashboard
- Traffic Lights
- Type child / Respondent number
